

BenefitReady® Technology Platform

Enrollment | EDI Feeds | Billing | COBRA/HIPAA | FSA | Call Center

BenefitReady® is a year round benefits portal for both Client HR and employees. The site can be used by HR for managing eligibility, running real-time reports, and for processing new hires, terminations, life events, and COBRA Qualifying Events. Employees can complete their enrollment process, review dependent and beneficiary information, and print a benefits confirmation statement. They can also access a message center and complete “Knowledge Base” menu of client specific links and forms.

- **Online Enrollment:** Rules-based, employees see only their plans, rates, rules, and communications
- **EDI File Feeds:** OS1 manages all 834/5010 HIPAA compliant EDI file transfers to carriers and payroll
- **Real Time Data/Reporting:** 24-hour access, on-demand reporting for Client HR, (.xls, Word or .pdf formats)
- **Client Control:** Open Enrollment window, Knowledge Base, user access rules, colors, custom URL and screen text can all be dictated by Client
- **Full Service Support:** Client has control, but CieloStar does all the system work to implement, configure, update, and feed EDI
