

Dependent Audit Software & Services

With CieloStar's Verifi system, Dependent Audits are EASY!

Nothing could be easier than a Dependent Eligibility Audit with the latest in online auditing tools and services brought to you by CieloStar. **Verifi** represents a whole new approach to Dependent Eligibility Auditing and has been designed to organize and automate the process online. We eliminate paper substantiation, manual letter generation, and cumbersome audit response tracking. **Verifi** is delivered via Software As A Service (SAAS), with full program support and live Call Center assistance provided by CieloStar.

Verifi Supports:

- Inbound census data in virtually any format
- Creation of a baseline eligibility database
- Upload of dependent documentation images directly from employees
- Management of substantiation workflow in an online inventory system
- Automated correspondence generation
- Intuitive, easy-to-use portal for employees to navigate the audit process
- Continuous status reporting and ROI Dashboard

Recent Client Results

- 3,400 Employees with 4,900 Dependents
- 3,100 documents uploaded by employees
- 213 Terminations
- 1 Year Savings = \$639,000
- Project ROI was 10:1 for 90 day initiative

The screenshot shows a web portal for 'ABC Company'. The user is logged in as MELISSA JOHNSON. The page displays a 'Verification Status: Incomplete' and asks the user to confirm the status of their eligible dependent(s). A table lists two dependents: STEVEN JOHNSON (Spouse, 05/27/1977) and JENNA JOHNSON (Child, 12/26/2000). There are radio buttons for 'Yes' and 'No' next to each name. Below the table, there is a checkbox for 'Are there additional dependents eligible?' and a 'Next' button. A fraud statement is also present, with a checkbox for 'I have read the above statement and agree to its terms.'

We Care About Culture!

With **Verifi**, we can configure the online tools with your branding and match the tone of employee communications to fit your culture. **Verifi's Smart Population** feature securely stores all document images to be used in future audits. This removes employees from subsequent audits who have valid proof of dependent eligibility still on file, and lessens the impact to your employee population each time you perform an audit.

Please contact us to learn more and to receive an official Dependent Eligibility Audit proposal.
