

Aggregated Billing & Reconciliation

Premium Collection & Disbursement | Automated Reconciliation | Self-Accounting

BenefitReady® allows our clients to take control of their eligibility and billing to ensure complete synchronization. "Self-Billing" is available for all lines of coverage with the fully integrated and real-time aggregated billing service offered by CieloStar.

A summary cover page is produced and emailed to our clients each month. This summary page shows all billing lines, all populations of employees such as Active, COBRA, and Retirees, any adjustments that were auto-calculated, and a grand total amount due. Our clients cut a single check, and CieloStar performs all of the carrier and vendor payments.

- The Aggregated Bill is prepared each month containing a customized breakdown of all premiums, ASO fees, detailed by employee and subtotaled by client criteria such as cost centers, locations, or divisions
- Client pays one check and CieloStar disburses appropriate payment with back-up to each vendor
- Carriers receive weekly EDI data feed with full eligibility to keep their systems in synch with BenefitReady®
- Automatic reconciliation is performed as the system tracks and reports retro debit and credit adjustments to premium based on eligibility changes made in each monthly billing cycle
- BenefitReady[®] is fully configured with all Plan types, rate schedules, eligibility rules, and contribution splits loaded to the system
- Payroll deductions are calculated based on enrollments and eligibility is then fed via EDI back to client payroll
